

City Procurement Cards

Section 5.1.2

PURPOSE

The purpose of this policy is to establish a framework for the Citywide Procurement Card program including participation in the program and the appropriate use of Procurement Cards. The Citywide Procurement Card program is established to streamline small dollar purchases and reduce the acquisition period.

For the purpose of this policy, a Procurement Card is a City-issued credit card from a financial institution. The Procurement Card shall be used as a first purchase option for small purchases unless the items are available in a City Warehouse or through established contracts such as Citywide or departmental Open Purchase Orders. **All forms referenced in this policy are available on Finance's Intranet site.**

SCOPE

This policy applies to all employees who are issued a City of San José Procurement Card, serve as Approving Officials, and all departments who authorize employees to use City Procurement Cards.

POLICY

I. General Information

The City Procurement Card is to be used for **OFFICIAL** City business and **MAY NOT BE USED FOR PERSONAL PURCHASES UNDER ANY CIRCUMSTANCES**. Failure to follow this policy, including any outlined processes and guidelines for Procurement Card purchases contained in this policy, may lead to the suspension or termination of a procurement card, disciplinary action, and/or reimbursement to the City by the employee for the unauthorized charges.

- ***Personal Purchases:*** Use of the Procurement Card for purchases that fall within the prohibitions listed below, and purchases that are not within the exceptions listed below, are considered personal purchases in violation of City policies.

The Procurement Card will only be issued to Cardholders who certify that they have read, understand, and will comply with this policy. All Approving Officials, and Department Procurement Card Coordinators are required to certify that they have read, understand, and will comply with this policy prior to assuming these duties.

The City Procurement Card is specially designed to avoid confusion with an employee's personal credit cards. The Procurement Card has the employee's name and the City of San José seal embossed on the card.

The issuance of a Procurement Card in an employee's name shall not be reflected in an employee's credit report. Credit agencies shall not request any personal information from an employee who is issued a Procurement Card nor shall the employee furnish any personal information in response to questions about a City issued Procurement Card.

Use of a City Procurement Card is a privilege and the Director of Finance may suspend or revoke cards at any time according to his/her assessment of the City's best interests such as, but not limited to, lack of timely review and approval of Procurement Card invoices and violations of this policy.

City Procurement Cards

Section 5.1.2

II. Prohibitions, Restrictions, and Purchasing Regulations

Prohibitions

The Procurement Card can be used to purchase supplies, materials, and equipment and services that do not exceed the single transaction limits as set forth in this policy or higher transaction limits as approved by the City's Chief Purchasing Officer for selected Cardholders.

The following are prohibitions that apply to the usage of the Procurement Card including, but not limited to:

1. Non-City business.
2. Use of Procurement Card by any other person than the Procurement Cardholder.
3. Delegation of the Procurement Card to another employee except as authorized Emergency Exceptions as outlined in this policy.
4. Cash advances.
5. Purchases from vendors when the Cardholder or Approving Official has a Conflict of Interest as defined by City policies.
6. Purchase of flowers, shower gifts, birthday gifts, etc., for fellow employees.

Exceptions

Exceptions to the prohibitions of the use of the Procurement Card are limited to the circumstances listed below. The use of the Procurement Card for an employee's personal use is generally prohibited except for:

1. *San Jose Police Department Mobile Emergency Response Group and Equipment (MERGE) Unit:*

The Procurement Card may be used for personal purchases limited to meals and/or other absolute necessities for employees on duty due to the operational needs of the Department, subject to any other rules or regulations of the City and/or Department.

For example, employees on duty and assigned to the MERGE Unit may be involved in an emergency situation requiring the employees' presence on scene for twenty-four (24) or more hours. The Procurement Card can be used to purchase meals and/or other necessities for these employees as needed and subject to any other rules or regulations of the City and/or Department.

2. *Purchases Approved by City Council:*

The Procurement Card may be used for purchases of items that can be used for the personal use of City employees when expressly approved by City Council. The Procurement Card may also be used for personal purchases when such purposes are in accordance with City Council direction in very limited circumstances, and subject to any other rules or regulations of the City and/or Department.

For example, if City Council approves the construction or renovation of a Fire Station where City employees are expected to reside during their shift, the Procurement Card may be used to purchase the accompanying and necessary amenities inherent in a Fire Station, such as a refrigerator and/or other necessities, as needed. Such purchases are, however, still subject to any other rules or regulations of the City and/or Department.

City Procurement Cards

Section 5.1.2

Outside of approval from City Council, City funds and/or the Procurement Card shall not be used to purchase such items including, but not limited to, refrigerators and microwaves for the personal use of City employees.

Any other situation or circumstance where a Procurement Card is used for a reason outside of the exceptions listed above is considered use of a Procurement Card for a personal purchase in violation of City policies.

Any other situation or circumstance where a Procurement Card is used for an employee's personal use outside of the exceptions listed above is presumed to be in direct violation of this policy, and may be in violation of other City policies; this means that employees who are issued a Procurement Card that is found to have been used for an employee's personal use bear the burden of overcoming the presumption that such use was not in violation of City policies.

Employees issued a Procurement Card are responsible for any and all use of the Procurement Card.

Restrictions

The following are restrictions that apply to the usage of the Procurement Card including, but not limited to:

1. Services which exceed \$1,000 except for:
 - a. off-site (not at a City facility) training;

5. Each single purchase may be composed of multiple items, but the total including tax cannot exceed the single transaction limit of the Procurement Card.
6. If a purchase will exceed the Procurement Card transaction limits, standard City purchasing procedures must be followed as outlined in CPM 5.1.7, Procurement of Goods, CPM 5.1.8, Procurement of Non-Professional Services, or CPM 5.1.9, Procurement of Information Technology.
